ss gilley

1 billion brollies end up in landfill each year. We're putting an end to this by focusing on sustainability through durability - producing something once that will last for years - opting for high-quality, durable materials like infinitely recyclable stainless steel over plastic.

To further maximise our impact, we've introduced a Gilley recycling scheme, which is certified carbon neutral. We are also committed to becoming a certified B Corp.

POLYCLEAN

Modern displays and touchscreens are an integral part of everyday life - whether in the car, at home or on the go. But with regular use, fingerprints inevitably appear, which affect the appearance and limit functionality. The HFX® display sponge offers the ideal solution: Equipped with P-9000® microfiber, it effortlessly removes annoying fingerprints and ensures clear, streak-free surfaces. Simple and effective: No water, no chemicals - just one wipe for a shiny display.

WEAR CHANGE

In the bustling world of fashion and promotional industry, where trends come and go, we decided in early 2023, to create a new brand, driven by a vision both bold and compassionate.

This brand is IQONIQ—a name destined to become synonymous with low impact, innovation and personal expression. Its inception was rooted in a profound realisation: the need to transform the textile industry and to prioritise the protection of the environment.
